Managed Cloud Services Overview

ILIOS DIGITAL

Why Managed Services?

- Modern cloud environments need 24x7 oversight, optimization, and proactive risk management. Ilios Digital offers a scalable, SLA-backed managed service framework that keeps your workloads **secure**, **resilient**, and **cost-efficient**.

Value We Deliver

- Dedicated Cloud Experts
- Automated Monitoring and Alerts
- Compliance-ready Infrastructure
- DevOps and App Modernization Advisory (Elite)

Next Slide Teaser:

- Explore our tiered offerings: **Premium** and **Elite**—tailored to your scale and complexity.

ILIOS DIGITAL – MANAGED SERVICE PACKAGES

PREMIUM

Pricing Tier:

$500 or

15% of Consumption Cost **(whichever is maximum)**

SCOPE

Server Checklist

- Monitors CPU, memory, and RAM utilization.

Port Validation

- Identifies open ports across security group.
- Restricts unnecessary access.

User Audit

- Reviews last login activity to identify inactive users.
- Removes unnecessary IAM roles and policies

Vulnerability Testing

- Analyze cloud resources for vulnerabilities.

OS Patching

- Review OS path releases with Application team

SUPPORT TIME

16 X 5

RESPONSE TIME

4HR

SUPPORTED SERVICE

EC2, RDS, S3, VPC, ECS, EKS, Lambda, API

OFFERINGS

Well-Architected Framework

- Helps to understand the pros and cons of decisions you make while building systems on AWS.
- Architectural best practices for designing and operating secure, reliable, efficient, cost-effective, and sustainable workloads.

Security Service:

- Implement and enforce cloud security controls.
- Threat and incident response planning.
- Detection, monitoring, and alerting.
- Protect your data with encryption.
- Plan for regulatory compliance.
- Audit standards, environment

Certificate Services:

- SSL, SW Certs, etc.
- Installation
- Renewals

Cost Optimization

High Level / Audit

- Identifies underutilized resources
- Manages or terminates unnecessary resources.
- Ensures compliance with best practices
- Right sizes instances to balance cost and performance
- Recommends reserved instances and auto-scaling
- Eliminates unnecessary expenditures

ILIOS DIGITAL – MANAGED SERVICE PACKAGES

ELITE

Pricing Tier:

$750 or

15% of Consumption Cost

(whichever is maximum)

SCOPE

- Server Checklist
- Port Validation
- User Audit
- Cost Optimization
- Vulnerability testing
- OS Patching
- Well-Architecture Framework
- DevOps
- Application Modernization
- AI/ML

SUPPORTED SERVICE

EC2, RDS, S3, VPC, ECS,
EKS, Lambda, API, etc…

SUPPORT TIME

OFFERINGS

Well-Architected Framework

- Helps to understand the pros and cons of decisions you make while building systems on AWS.
- Architectural best practices for designing and operating secure, reliable, efficient, cost-effective, and sustainable workloads.

App Modernization & DevOps Service:

- Automation
- Cloud Native CI/CD
- Infrastructure as Code (IaaC)
- Microservice Consulting and Architecture Design
- Automation Testing

Security Service:

- Implement and enforce cloud security controls.
- Threat and incident response planning.
- Detection, monitoring, and alerting.
- Protect your data with encryption.
- Plan for regulatory compliance.
- Audit standards, environment

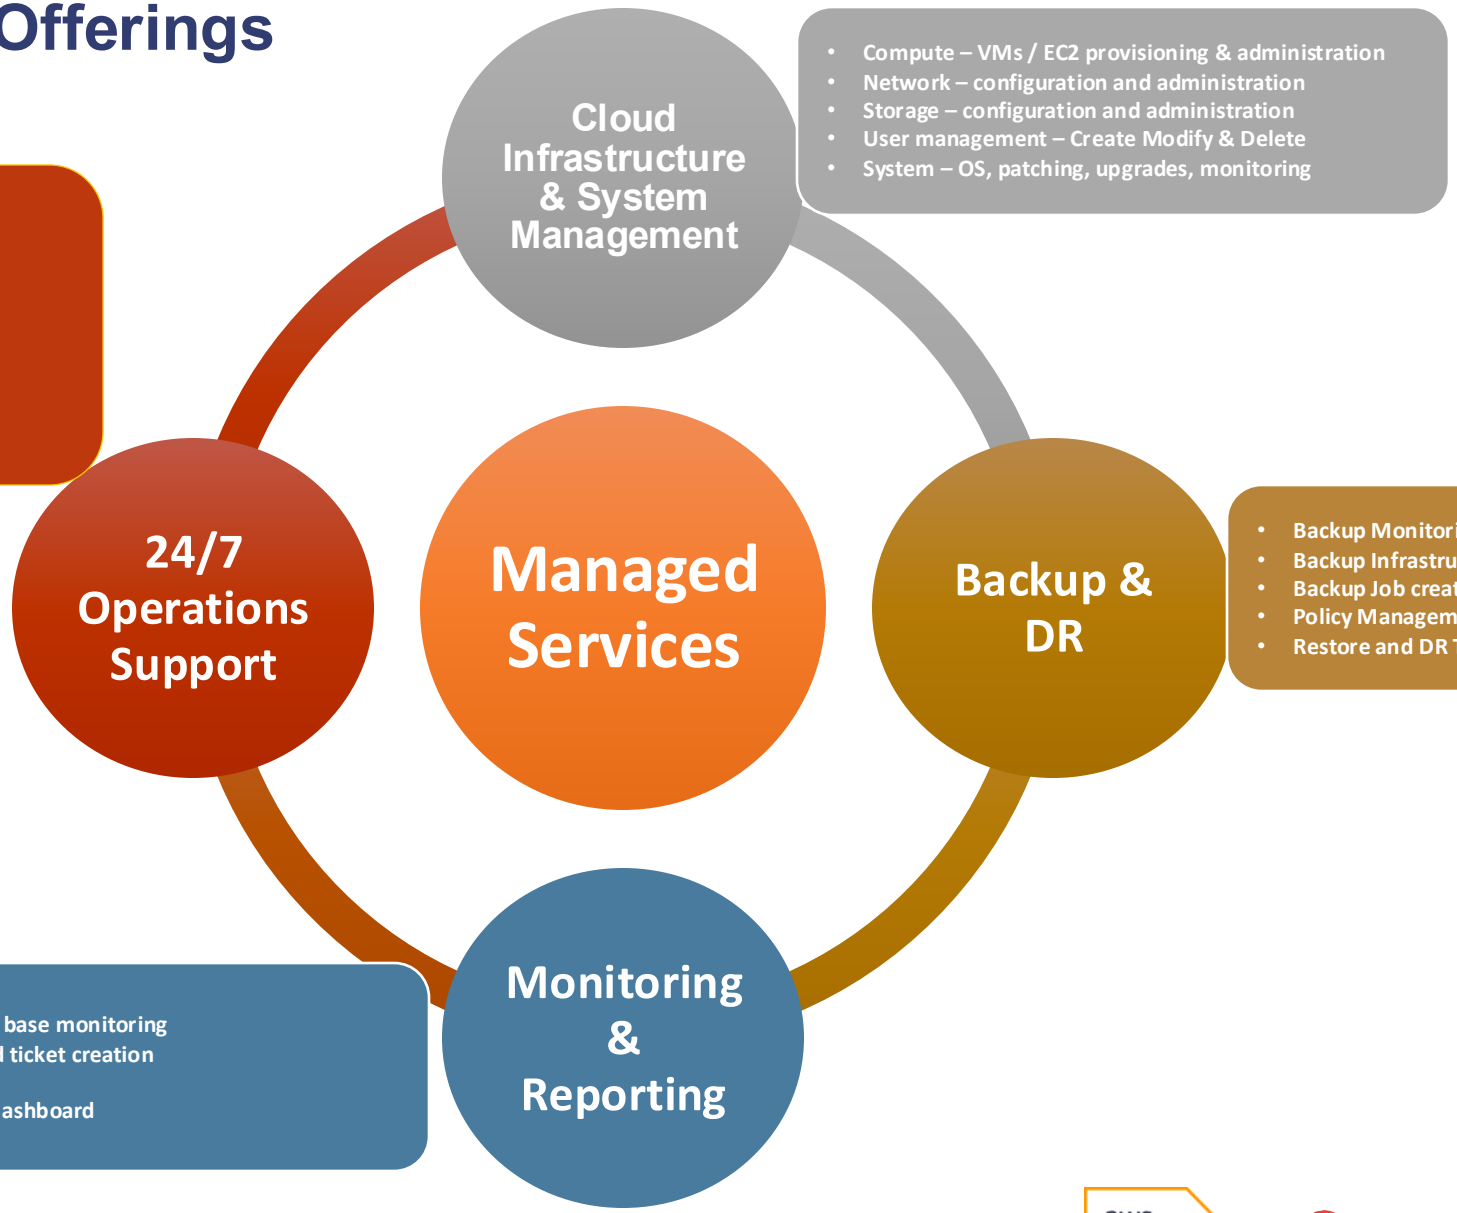

Certificate Services:

- SSL, SW Certs, etc.
- Installation
- Renewals

Cost Optimization

- Practice Cloud Financial Management.
- Expenditure and usage awareness.
- Cost-effective resources.
- Manage demand and supply resources.
- Optimize over time

Managed Service Offerings

- Compute – VMs / EC2 provisioning & administration
- Network – configuration and administration
- Storage – configuration and administration
- User management – Create Modify & Delete
- System – OS, patching, upgrades, monitoring

- Backup Monitoring
- Backup Infrastructure Management
- Backup Job creation and scheduling
- Policy Management
- Restore and DR Test

- Proactive alerts base monitoring
- Notification and ticket creation
- Reports and KPI
- Service health dashboard

- Service desk/ help desk
- Ticket lifecycle management
- Response and resolutions
- Incident management
- Problem management
- Change management
- Capacity management
- Customer management
- SLAs & CSAT

Cloud Operations, Monitoring & Reporting's

Services	Enterprise	Premium	Premium Plus
	Cloud Basic Operations		
E-mail & Phone Access	8 x 5	16 x 5	24 x 7
24 x 7 Monitoring of Virtual Machines/Server	Y	Y	Y
DNS & Web Traffic Monitoring	8 x 5	16 x 5	24 x 7
Real-time notifications and Alarms	Y	Y	Y
Incident Management	Y	Y	Y
Change & Release Management		Y	Y
Backup Management	Y	Y	Y
OS/Snapshots/VMs Management	Y	Y	Y
Basic Patch Management	Y	Y	Y
DR Support		Y	Y
Advanced Patch Management			Y
Peak Traffic Support (Campaigns, Marketing,etc...)		Y	Y
	OPERATIONAL MONITORING & REPORTING		
SERVICES MONTORING	Y	Y	Y
SECURITY MONITORING	Y	Y	Y
BACKUP MONITORING		Y	Y
NOTIFICATIONS & SECURITY ALERTS	CloudWatch	CloudWatch, AWS Health and logs	CloudWatch, Config, Security Hub, Backups, etc
LOGGING AND LOG AGGREGATION		AWS CloudTrail, Amazon CloudWatch, VPC flowlogs, AWS Managed Services Change Record, and system logs	AWS CloudTrail, Amazon CloudWatch, VPC flowlogs, system logs, and AWS Managed Services change management activity
REPORTING	Half-yearly	Quarterly	Monthly
COST OPTIMISATION		Quarterly	Monthly

Cloud Security Management & Backup Management

Services	Enterprise	Premium	Premium Plus
Security Management			
Access Management (Users, Groups, ACLs, Servers)	Y	Y	Y
Perimeter Support (Firewall, VPNs etc.)	Y	Y	Y
DDoS Management & Support		Y	Y
WAF Management & Support		Y	Y
Anti-virus Management & Support		Y	Y
IDS/IPS Management & Support		Y	Y
Data Encryption Management		Y	Y
Security Audits		Yearly	Quarterly
